

Engine: checking oil level

Note

- t Engine oil temperature at least 60 °C.
- t Vehicle must be level (horizontal).
- t Wait a few minutes after switching off the engine to allow the oil to flow back into the sump.
- Pull out the dipstick, wipe with a clean cloth and insert again as far as it will go.
- Pull out the dipstick again and read off the oil level.

Markings on oil dipstick:

- a - Do not top up oil.
- b - Oil can be topped up. The oil level may rise as far as area -a- after topping up.
- c - Oil must be topped up. The oil level is sufficient if it is somewhere in area -b- (grooved area) after topping up.

Note

The oil level must not be above marking -a- on the dipstick.
